

# YOUR SOLUTION FOR REPLACEMENT EQUIPMENT INSTALLATIONS

## PROBLEM

When providing replacement equipment all over the USA—from fryers to ice machines—dealers are often left trying to find an answer for its installation and disposal. Too often this is time consuming, expensive and risky.

## SOLUTION

Let AIM provide you with a comprehensive solution so you can lock in your profit and satisfy your client! From delivery coordination, installation, disposition through start-up our Team will be on target!

- 1 Delivery to the site – We coordinate and ensure your replacement equipment is shipped to the location on time.
- 2 Installation – Our skilled technicians install the new equipment quickly and efficiently.
- 3 Old equipment removal – We handle the removal and proper disposal of the outdated equipment, so you don't have to.

No more juggling multiple installers or waiting two weeks for a single equipment installation. AIM National provides quick turnaround on quotes and quality installations through our vetted national installation network. Advanced Installation Management – Trusted installation services for national equipment dealers.
